Transfer to local stroke center vs direct to csc

Presented by:

Teddy Si Youn, MD
Assistant Professor
Division of Neuro-critical Care & Vascular Neurology
University of Florida College of Medicine

Faculty Disclosure:

Dr. Youn has disclosed that he has no relevant financial relationships. No one else in a position to control content has any financial relationships to disclose.

Release Date: June 25, 2018

Expiration Date: June 25, 2020

Target Audience:

Primary Care Physicians, Specialty Physicians, Clinical Neurologists, Movement Disorder Specialists, Neurological Nurses

Learning Objectives:

As a result of participation in this activity, participants should be able to:

1. Recognize and describe components of a stroke system of care
2. To understand the importance of prehospital personnel training and education on stroke for triaging transport to PSC versus CSC directly
3. Understand how modern technology is changing triaging for patients with LVO
4. To better understand the changing landscape of our understanding for bridging IV tPA therapy with mechanical thrombectomy patients with LVO strokes

Accreditation: The University Of Florida College Of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credits: The University of Florida College of Medicine designates this enduring material for a maximum of 0.5 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credits commensurate with the extent of their participation in the activity.
